

EXPERTISE AND CONSULTANCY

ABOUT

Our expertise and consultancy provides your organisation with bespoke practices relating to your fleet policies and guideline set-up. Areas of analysis, such as crash statistical analysis, workshop set-up, consumable stock control as well as training of trainers in our areas of expertise are offered to enhance your fleet aspirations.

DELIVERABLES

Our expertise and consultancy deliverables are provided by a team with over 125 years of expertise relating to technical vehicle knowledge, fleet management, aid and security experience, and educational training, coaching and leadership.

QUALITY ASSURANCE

Our courses have been endorsed by the manufacturer Toyota. Toyota supports our expertise and believes that our courses contribute to vehicle longevity by adopting the correct usage of the vehicle.

Toyota Gibraltar Stockholdings had been accredited Investors in People Platinum demonstrating that our organisation leads, supports and develops our people. This concept is also implemented in our 4x4 driver courses.

Additionally, TGS has acquired ISO 9001 a global standard for quality management systems that helps organisations meet customer and regulatory expectations. TGS is also ISO 14001 certified excelling in the global standard for environmental management systems that helps organisations reduce their environmental impact and improve our sustainability.

LEARNING OUTCOMES

- Best practices and recommendations for safe operation of fleet related issues •
- Specific criteria relevant for your organisation and operational outcomes •
- Designed and assessed according to specific requirements and observations •

BENEFITS

Choosing our expertise brings benefits to your organisation:

- Learning from field and vehicle experts •
- Improve longer life span of vehicle •
- Reduce operational costs •

TESTIMONIALS

“Thank you TGS for affording me the opportunity to be part of the training. I promise to use all the knowledge and skills I acquired during the training for the improvement of our fleet” DWHH
