ONLINE LEARNING

ABOUT

Our online courses are assessed and self-paced so a learner can study in their own time. These theoretical course topics are:

• Road Safety •
• 4x4 Driving
• Preventive Maintenance and Mechanics •
• Fleet Management •

TRAINING METHODS

Our online courses adopt the following training methods, interactive activities, virtual classroom webinars, and assessed according to the course learning outcomes.

QUALITY ASSURANCE

Our courses have been endorsed by the manufacturer Toyota. Toyota supports our expertise and believes that our courses contribute to vehicle longevity by adopting the correct usage of the vehicle.

Toyota Gibraltar Stockholdings had been accredited Investors in People Platinum demonstrating that our organisation leads, supports and develops our people. This concept is also implemented in our 4x4 driver courses.

Additionally, TGS has acquired ISO 9001 a global standard for quality management systems that helps organisations meet customer and expectations. TGS is also ISO 14001 certified excelling in the global standard for environmental management systems that helps organisations reduce their environmental impact and improve our sustainability.

LEARNING OUTCOMES

• Best practice for safe operation of 4x4 vehicles •
• Improve on-road and off-road driving and knowledge •
• Improve understanding of vehicle maintenance, vehicle recovery •
• Enhance best practice for Fleet Management •

BENEFITS

Choosing our online courses brings benefits to your organisation:
• Complements face to face courses •
• Improve longer life span of vehicle •
• Reduce operational costs •
• Engaged field ambassadors •

TESTIMONIALS

"When driver is faced with unexpected difficulties to be overcome in isolated areas, this training completes all the technical shortcomings not to mention the rescue tools" Online Learner, NGO organisation
